IMPROVING COMMUNICATIVE COMPETENCE IN FOREIGN LANGUAGES FROM A DISTANCE

Current Progress

As summer is officially over and everyone is getting back to work, the iCom project also resumes its activities. We have a lot planned - online meetings, face-to-face meetings, and of course many tasks and deadlines ahead of us.

We are currently working on the technicalities of the iCom mobile application, led by Amaita Intercultura (Italy), and the Open Educational Resource for Formulaic Language Teaching, led by Castilla Languages (Spain). The technical development of both IOs is led by Innovation Frontiers (Greece).

Partner meetings

Our next face-to-face meeting is scheduled for this October! It will take place in Athens, Greece, and will be hosted by Innovation Frontiers.

Mind is the limit

SUMMER 2022

Our Latest News

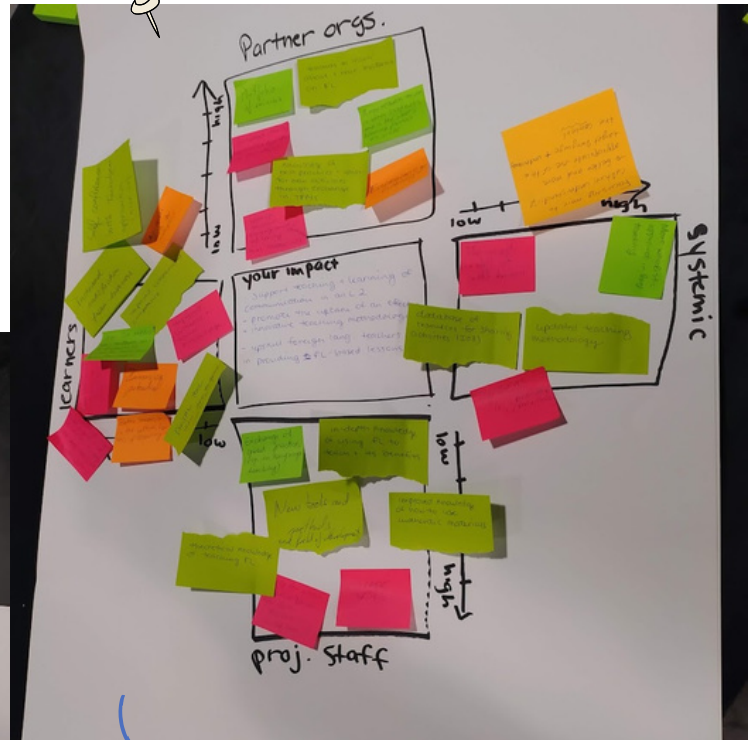

This April we had our face-to-face meeting in beautiful Rome, Italy, hosted by Amaita Intercultura! Here you can see some of the photos taken.

The meeting took place in the neighbourhood of Garbatella. The houses and overall feeling were very unique! We also had the chance to try some of the very delicious - local dishes.

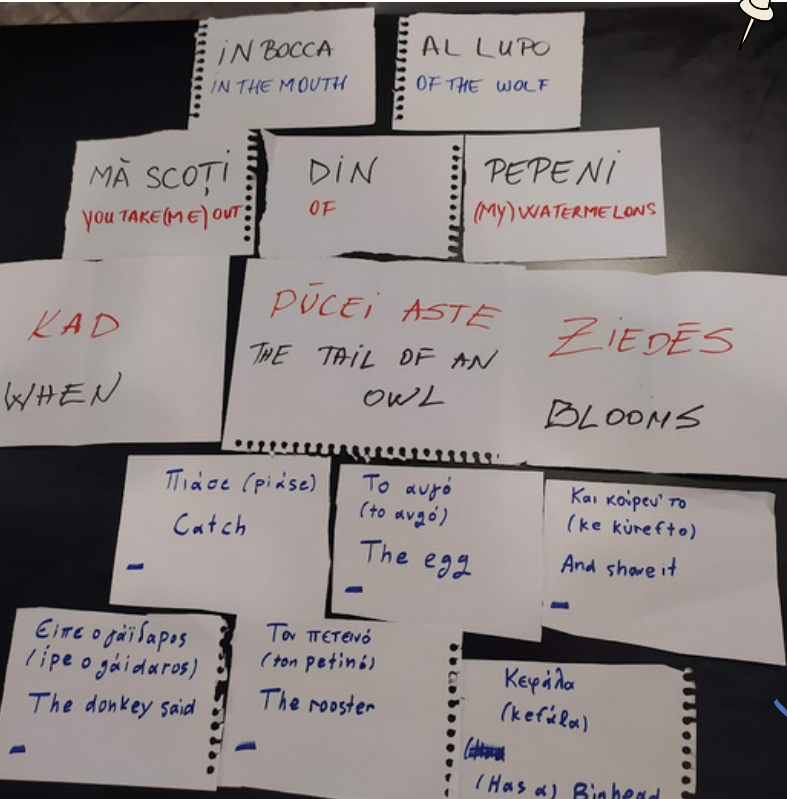

We found this retro gaming machine in the place where Amaita Intercultura members work. Do you have something similar in your office?

As we were all together face-to-face for the first time, we did an "impact exercise" for the project. Our biggest impact will be on learners.

Idioms are a sub-category of formulaic language. Do you recognise any of these? We had a lot of fun trying to put the pieces together and understand the meaning. Do you have any similar sayings in your area?
